## ENGINE LUBRICATION

### Engine Oil Selection

Case No. 1 Engine Oil is recommended for use in your Case Uni-Loader Engine. Case Engine Oil will lubricate your engine correctly under all operating conditions.

If Case No. 1 Multi-Viscosity or Single Viscosity Engine Oil is not available, use only oil meeting API engine oil service category CE.

ts98h007

tr98h001

See the chart below for recommended viscosity at ambient air temperature ranges.

**NOTE:** Do not put Performance Additives or other oil additive products in the engine crankcase. The oil change intervals given in this manual are according to tests with Case Lubricants.

### Oil Viscosity / Temperature Usage Recommendation

\* Use of an engine oil heater, or an engine coolant heater, is required in crosshatched area.
