5. SERIAL NUMBER — Applies to Engine or Frame serial numbers depending on the section.
The serial number of the vehicle (frame, engine, carburetor) should be checked prior to ordering parts for a specific unit. In cases where a part has been modified, the serial number of the vehicle bearing the modification is listed in the 'SERIAL NUMBER' column.
The modification parts are controlled by each pertinent serial number below:
Engine serial number — Engine group parts (Block numbers beginning with 'E').
Carburetor identification number — Carburetor component parts.
Frame serial numbers — Frame group parts (Block numbers beginning with 'F'). Serial number application chart and Serial number locations are provided.

Note: Some models may be controlled by one serial number only.

Decision for 'R' or 'L'.
'R' or 'L' in the description of a part stands for the Right hand side or the Left hand side which is decided by the forward direction of travel of the vehicle.

How To Use This Catalog
